SITE RECONNAISSANCE NOTIFICATION AND INFORMATION REQUEST

June 19, 1997

(b) (6)

RE: Former Eagle River Training site

Dear Sung:

Per our conversation on June 19, 1997, this letter confirms the site visit at the former Eagle River Training site located in Eagle River, Alaska. The site visit has been scheduled for July 9, 1997 at 4:00 p.m. During the site visit, any information concerning the site that could be provided (such as site assessments, sampling or monitoring information, etc.) would be appreciated.

The visit will be performed by Ecology and Environment, Inc., (E & E). E & E is an authorized contractor of the U.S. Environmental Protection Agency (EPA) (Contract No. 68-W6-0008) and is acting as field investigators for EPA. The investigators may be accompanied by representatives from EPA, the Alaska Department of Environmental Conservation, or both.

Under Section 104(e) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), 42 U.S.C. 9604(e), EPA may gain access to and request information from sites where:

- Any hazardous substances, pollutants, or contaminants may have been released or are threatened to be released, or
- Any hazardous substances, pollutants, or contaminants may have been generated, stored, treated, disposed of, or transported to or from the site.

The former training site will be visited to determine the impact or potential impact of any hazardous substances that were released to the environment from past military operations. The field investigators will:

- Meet with the site owner or representatives on the date and time specified above.
- Interview the site owner or representative to confirm existing information (i.e., address, total area, etc.)

- Perform a site walk-through and visual inspection with the site owner or representative.
- Take photographs of the site.
- Collect all pertinent information including manifests, site maps, sampling results, etc., from the site owner or representative.

Findings will provide a basis for EPA to determine whether any further action is appropriate at the site.

You may assert a claim of confidentiality for any information entitled to protection under 40 CFR, Part 2, Subpart B. All confidential material must be separately submitted, marked "confidential," and include the basis of your claim. EPA will treat such information as set forth in the cited subpart.

If you have any questions regarding our site visit, please contact me at (907) 257-5000 or Mark Ader at EPA, (206) 553-1808.

Sincerely,

ECOLOGY AND ENVIRONMENT, INC.

Michael Daigneault
Biologist
